STAT KIT® Z-1000 Mobile ACLS highlights

The STAT KIT Z-1000 Mobile ACLS Emergency Medical Kit is designed to provide a comprehensive collection of medications and medical devices in a mobile case capable of accommodating an AED and oxygen E-cylinder. The contents are organized into clearly labeled sections and medication trays, categorized by key areas of care for easy access during emergency situations.

- Essential and common advanced cardiac life support medications[1] and devices
- Includes pediatric epinephrine auto-injector
- Add oxygen and an AED for an integrated emergency response kit
- The kit case can accommodate oxygen E-cylinder, oxygen masks and AED
- Mobile canvas case with a reinforced frame and built-in wheels: 19.5" x 10.5" x 17.5", 26 pounds (without AED and oxygen)

Always up to date

HealthFirst's Auto-Replenishment Service takes the guesswork out of staying up to date. The service uses smart automation to track the expiration dates of medications and devices and automatically replenishes them before expiration. Your practice benefits by saving time and gaining peace of mind.

OnTraq™

OnTraq is an online account management tool that dynamically shows the status of your emergency medical kit and medications. It allows users to view each medication, expiration dates, lot numbers, drug backorder status, and upcoming medication replenishment shipments. Rely on OnTraq's smart automation for dashboards, reports and task management.

The STAT KIT Z-1000 Mobile ACLS contains the following essential medications and devices:
