Scrap Amalgam Waste Service

- Meets ADA standard and complies with ANSI 109 requirements
- Is available in three convenient sizes
- Acceptable waste items:
 - Chairside traps
 - Spent capsules
 - Pump filters
 - Contact or non-contact amalgam
 - Extracted teeth with amalgams (disinfected)
- Ensures all waste is properly recycled through a permitted facility
- Provides compliance documentation proving you properly disposed of your scrap amalgam waste

Scrap amalgam should NEVER be disposed of in red bags, the garbage, or your sink. Stay in compliance with Best Management Practices (BMP) regulations by disposing of scrap amalgam waste properly. We offer a simple solution for your scrap amalgam needs through Pristine Environmental Services in coordination with HealthFirst. Simply purchase a pail, fill with your scrap amalgam waste, then call 800-569-1088 for pickup by UPS at no additional cost to you.

HealthFirst also offers a simple solution for cleaning and conditioning your vacuum lines and your amalgam separator. See reverse for additional information.
