- Complete online in less than 90 minutes.
- Learn at your own pace, stop course and return later
- Learning Management System tracks progress and results.
- Certificate of Completion available for print or download.
- Employer-based access to records so your office can easily document training.

# Online Bloodborne Pathogens Training Frequently Asked Questions (FAQ)

## Who must receive Bloodborne Pathogens Training?

Any employee whose occupation may expose them to blood, body fluids or any other potentially infectious materials.

## How often must I receive this training?

OSHA requires that you receive this training upon assignment and at least annually thereafter.

## What do I have to do to successfully complete the training?

This online course features three video modules covering the 14 required elements of the Bloodborne Pathogens Standard. You will be asked a short series of questions between each module. To make sure you completely understand the information, you need to get a 100% score to download the certificate.

Learners have two chances to answer each question correctly. Non-graded practice quizzes are provided to help students focus on critical topics. You may repeat the course and/or each module as many times as necessary to achieve the passing score.

## Can I operate this online course on my computer system and network?

System Requirements and Links:

- Internet access and any standard Web browser (Javascript and cookies enabled)
- Adobe® Reader® (v.8 or higher recommended)
- Microsoft® Windows® 7, or MAC OS 10.7 or higher
