

## STAT KIT® SM Series

### BASIC EMERGENCY MEDICAL KIT

Designed to prepare you for common medical emergencies.  
HealthFirst will ensure your medications are always up to date.

# STAT KIT® SM Series Highlights

STAT KIT SM Series basic emergency medical kits are designed for the general practice to be prepared for common medical emergencies. The kits are designed to provide essential medications and medication delivery in a well organized, lightweight carry case.

## Always up to date

HealthFirst's Auto-Replenishment Service takes the guesswork out of staying up to date. The service uses smart automation to track the expiration dates of medications and devices and automatically replenishes them before expiration. Your practice benefits by extending the shelf life of medications, lowering costs, saving time, and gaining peace of mind.

## OnTraq

OnTraq is an online account management tool that dynamically shows the status of your emergency medical kit and medications. It allows users to view each medication, expiration dates, lot numbers, national drug backorder status, and upcoming medication replenishment shipments. Rely on OnTraq's smart automation for dashboards, reports and task management.
