### Choose the model configured for your practice:

STAT KIT 550

Office-based practice

STAT KIT 550-AI

Office-based practice

Adds pediatric epinephrine auto-injector

# STAT KIT® 550 highlights

The STAT KIT 550 emergency medical kit is equipped to keep your facility prepared for a medical emergency, yet lightweight and portable. It provides a basic set of medications and devices for triage, medication delivery, and resuscitation.

- Lightweight: 5 lbs
- Portable: 5.25" x 10" x 13", 5 pounds
- For basic emergency medical response
- No I.V. or ACLS medications

## Always up to date

HealthFirst's Auto-Replenishment Service takes the guesswork out of staying up to date. The service uses smart automation to track the expiration dates of medications and devices and automatically replenishes them before expiration. Your practice benefits by extending the shelf life of medications, lowering costs, saving time, and gaining peace of mind.

## OnTraq

OnTraq is an online account management tool that dynamically shows the status of your emergency medical kit and medications. It allows users to view each medication, expiration dates, lot numbers, national drug backorder status, and upcoming medication replenishment shipments. Rely on OnTraq's smart automation for dashboards, reports and task management.
