Always up to date

HealthFirst's Auto-Replenishment Service takes the guesswork out of staying up to date. The service uses smart automation to track the expiration dates of medications and devices and automatically replenishes them before expiration. Your practice benefits by saving time and gaining peace of mind.

OnTraq

OnTraq is an online account management tool that dynamically shows the status of your emergency medical kit and medications. It allows users to view each medication, expiration dates, lot numbers, national drug backorder status, and upcoming medication replenishment shipments. Rely on OnTraq's smart automation for dashboards, reports and task management.

The STAT KIT 750 contains the following essential medications and devices:
