

# Welcome to the Crash Cart Auto-Replenishment Program Powered by OnTraq™

Thank you for enrolling in the **Crash Cart Auto-Replenishment Program**. We look forward to supporting your emergency medication needs and want to highlight some key program benefits.

This package includes:

- A new set of medications to place in your crash cart(s).
- A prepaid pharma box for returning unused or expired medications.
- Package inserts with prescribing information for each medication.

To help us maintain accurate tracking of expiration dates and any potential recalls, please dispose of any unused or expired medications using the enclosed pharma box after you've received and stored your new medications.

The Crash Cart Auto-Replenishment Program provides:

- Automatic refill shipments of expiring crash cart medications.
- Prepaid recovery envelopes sent with each refill shipment for returning expired medications.
- Up to two emergency events covered per annual term.
- Online access to the OnTraq dashboard for real-time medication tracking.

Included in this packet is a sticker to place on your crash cart. Scan the QR code on the sticker or below for helpful resources, FAQs, and more information about the program. You can also access this information at [healthfirst.com/crash-cart-onboarding-guide](https://healthfirst.com/crash-cart-onboarding-guide).
